SaharFatimaDevjani

SUMMARY

Passionate Computer Science graduate skilled in full-stack web development (React, Node.js, Django, MongoDB). Experienced in Agile teamwork, problem-solving, and modern version control. Seeking opportunities to apply technical and analytical skills in real-world projects.

EDUCATION

Muhammad Ali Jinnah University (MAJU) 2020 - 2026
Bachelor's in Computer Science (CGPA : 3.5)
Fatimiyah Girls College (FGC) 2018 - 2020
Intermediate in Medical Science

EXPERIENCE

MERN Stack Developer Intern — 10Pearls (Remote) Jun 2025 – Aug 2025
Built a complete **Notes Application** using **Node.js, React.js, and MongoDB**, featuring authentication and rich-text editing. Implemented **logging (Pino)**, **global exception handling**, and **unit testing** with **Mocha/Chai** and **Jest**. Integrated **SonarQube** for code quality and collaborated through **Git** for version control.
Skills: Node.js, React.js, MongoDB, Jest, Git, SonarQube

AI Product Development Fellow — Click Chain Academy (Remote) May 2025 – Aug 2025
Collaborated on team projects using **Agile** methods to design and build web solutions. Enhanced **frontend prototypes** in **Figma** and wrote scripts in **Java** and **Python** for backend logic. Strengthened teamwork, problem-solving, and version control workflows.
Skills: Java, Python, Figma, Agile

Frontend Intern — RobX AI (Remote) Oct 2024 – Dec 2024
Contributed to frontend development using **React, Next.js, and Tailwind CSS** to create responsive UIs. Worked with developers via **Git** to maintain code quality and implement modern design components.
Skills: React, Next.js, Tailwind CSS, Git

TECHNICAL SKILLS

Frontend Development	HTML, CSS, JavaScript
Backend Development	Python (Django)
JavaScript Frameworks	React, jQuery
CSS Frameworks	Bootstrap, Tailwind
Version Control	Git, GitHub
Database Management	SQL, PostgreSQL
Content Management Systems (CMS)	WordPress
Programming Languages	Python, C, C++, Java

KEY COMPETENCIES

Attention to Detail	Independent Thinking
Organization & Teamwork	Data Analysis
Decision-Making	

CERTIFICATIONS & PROFESSIONAL TRAINING

Frontend Development	Codegirls, Consulnet
HTML, CSS, JavaScript, jQuery	
Crash Course on Python	Google, Coursera
Python Programming, Strings, Lists, Dictionaries	
Python Programming	Codegirls, Consulnet
Python Programming, Django, MySQL	
WordPress Development	Codegirls, Consulnet
Web Development using WordPress, Plugins	
Structured Query Language (SQL)	CU Boulder
SQL Fundamentals, Queries, Joins, Database Design	
Certificate in Eureka English (CIEE)	Eureka
Spoken English, Pronunciation, Grammar, Accent	
Introduction to Frontend Development	Meta, Coursera
Web Technologies, HTML, CSS, JavaScript Basics	
React Basics	Meta, Coursera
JSX, Components, Props, State, Event Handling	

PROJECTS

StepUp -- Travel and Tours [Live Demo](#) [Code](#)
Developed a user-friendly tourism website using **HTML, CSS, and JavaScript** as part of a Frontend Development Course, demonstrating attention to detail and user experience design.

Roran a CSS Website [Live Demo](#) [Code](#)
Created a basic website using **HTML and CSS**, showcasing foundational web development skills.

Devjani Masala -- Django Project [Code](#)
Designed and implemented an e-commerce website using **Python (Django)** and **MySQL** for a small business, emphasizing backend development, database integration, and CRUD operations.

Tasty Treats -- MVC Application [Code](#)
Engineered a dynamic web application using the **MERN stack (MongoDB, Express, React, Node.js)**, featuring interactive pages (Home, About, Products, Contact), seamless API integration, and full product CRUD management via RESTful APIs.

Fresh Baked -- A React Project [Live Demo](#) [Code](#)
Developed a responsive bakery portfolio website using **React, Firebase (Authentication & Firestore)**, and **Tailwind CSS** as part of a final project. Integrated admin login, dynamic product filtering, and customer favorites, with plans to scale into a full e-commerce platform.

Product CRUD -- React [Live Demo](#) [Code](#)
Built a Product CRUD application using **React.js, Axios**, and **MockAPI** with dynamic routing and responsive UI. Integrated single-form logic for Add/Edit, product table display, and **SweetAlert2** for user feedback.

Hotel Management System -- Java [Code](#)
Developed a **Hotel Management System** using **Spring Boot** and **MySQL** with secure booking, payment simulation, and admin control for room management and pricing.
