PROFESSIONAL SUMMARY

Software Design Engineer at Teresol working on a production banking application (Camunda BPMN, Vue.js). BS Computer Science (CGPA 3.51/4.00) with front-end, back-end and applied-AI experience from three internships, and team lead of a Grade-A computer-vision final year project. Seeking roles that combine software development, web development and AI.

WORK EXPERIENCE

Software Design Engineer — Teresol, Karachi Jun 2026 – Present

- Contribute to a production banking application used in a regulated financial environment.
- Configure Camunda BPMN forms and process properties for banking business workflows.
- Building proficiency in the Vue.js front end; prepare technical documentation and data reports for the team.

MERN Stack Intern — 10Pearls (Shine Internship Program, remote) Jun 2025 – Aug 2025

- Built a full-stack notes app (React, Node.js, Express, MongoDB) with authentication and rich-text editing.
- Took part in code reviews and SonarQube code-quality checks within the internship programme.

AI Product Development Fellow — Click Chain Academy (CodeGirls, remote) Apr 2025 – Jun 2025

- Worked in an Agile team on the academy's Java development project, delivering features in sprints.
- Designed product flows in Figma; built chatbot and prediction features with Python and scikit-learn.

Frontend Web Development Intern — RobX AI (remote) Nov 2024 – Jan 2025

- Developed responsive websites (Edusity, SnapCheck) with React, Next.js and Tailwind CSS.

Web Developer & Social Media Manager — Devjani Naturals (family business) Ongoing

PROJECTS

VTry — Virtual Try-On Accessories Shop

Final Year Project, Grade A · Team lead (4 members) · GitHub — React · Node.js · Express · MongoDB · MediaPipe

- Proposed the idea and led the team: an accessories e-commerce store where customers try on glasses live through the webcam, with MediaPipe face landmarks driving position, scale and rotation of the overlay in real time.
- Built about 80% of the back-end REST API and the front-end integration: JWT auth with bcrypt, role-based admin routes, guest and user checkout with stock handling, Cloudinary uploads, password reset by email and Swagger API docs.

Hotel Management System GitHub — Java 17 · Spring Boot · MySQL · React

- Booking app with a Spring Boot REST API (Spring Security, JWT, JPA) and React front end: overlap and availability checks, price calculation, simulated payment methods, admin CRUD panel and global JSON error handling.

Fresh Baked — Bakery Portal Live demo · GitHub — React · Firebase · Tailwind CSS

- CodeGirls final project: bakery site with category-based menu and an admin panel (Firebase Auth, Firestore) for products.

Devjani Masala — Spice Business Portfolio GitHub — Python · Django · SQLite

- Django web app for a family spice business with authentication and Django admin for managing product listings.

TastyTreats — Inventory App — C# · ASP.NET MVC

- Snack inventory application built on the Model-View-Controller pattern with full CRUD functionality.

TECHNICAL SKILLS

Proficient: JavaScript, React, Next.js, HTML5, CSS3, Tailwind CSS, Python, REST APIs, Git & GitHub, WordPress
Working knowledge: Node.js, Express.js, Django, MongoDB, MySQL, SQLite, Firebase, JWT authentication, Postman, Vercel, Cloudinary, Figma
Familiar with: Java / Spring Boot, Vue.js, Camunda (BPMN), MediaPipe, OpenCV, scikit-learn, PostgreSQL, C#, C/C++

EDUCATION

BS Computer Science — Muhammad Ali Jinnah University (MAJU), Karachi · CGPA 3.51 / 4.00 — 2020 – 2025

COURSES & CERTIFICATIONS

Coursera: Meta Front-End (Intro to Front-End, Programming with JavaScript, HTML & CSS in Depth, React Basics) · Crash Course on Python (Google) · SQL (University of Colorado Boulder)
In progress: Machine Learning (Coursera) · **Other:** Entrepreneurial Development Program (IBA Karachi) · eCompreneurship (Kamyab Career)
CodeGirls (ConsulNet, with Contour Software): Frontend Development · Python & Django · WordPress · Java

VOLUNTEERING

KPSIAJ Youth Forum, Karachi — Member & Volunteer: organising team for youth job fairs, coding competitions and workshops; Connect for Cause team (community cleanliness drives).
Fatimiyah Girls Guide, Karachi — Volunteer: attendee management and coordination at community events.
